# WORLD MAP - INDONESIA - CENTRAL JAVA - YOGYAKARTA PROVINCE MAP

**Where is Interhash 2026 ?**

# Message from the Minister of Tourism of The Republic of Indonesia Prambanan Mendut Interhash Guidebook 2026

Widiyanti Putri Wardhana  
Minister of Tourism  
of the Republic Indonesia

It is with great pride that I welcome the holding of Prambanan Mendut Interhash 2026. This event is a true example of sports tourism that unites voices from various countries, ages, and backgrounds in the spirit of collaboration, harmony, and brotherhood through cross-country sports events.

The Ministry of Tourism of the Republic of Indonesia expresses its highest appreciation to Prambanan Mendut Interhash 2026 as the organizer who has succeeded in making Indonesia the host of an international-scale cross-country sports event that simultaneously combines the concepts of cultural exploration and tourism.

The Prambanan and Mendut temple complexes not only offer natural beauty and cultural richness, but also serve as a strategic platform for promoting Wonderful Indonesia internationally. By hosting the Prambanan Mendut Interhash 2026, we are strengthening Indonesia's position as a leading destination for international-level sports, arts, and cultural events.

We hope this event will run smoothly and inspire the younger generation to love sports, art, preserve culture, and foster a spirit of brotherhood.

Not to forget, I would like to extend my welcome to all participants from within and outside the country who have attended and participated in the celebration of the world's "Hashers". Hopefully you will achieve the best results, and more than that, go home with friendship and an unforgettable experience.

Welcome to this series of festivals and welcome to Wonderful Indonesia!

**Widiyanti Putri Wardhana**  
Minister of Tourism of the Republic of Indonesia

# Welcome from the Governor of Central Java

**Drs. Ahmad Luthfi,  
S.H., S.St.M.K**

Participants of Prambanan–Mendhut Interhash 2026 from around the world and across Indonesia, the Organizing Committee, and the entire Hash family whom I am proud of,

As the Governor of Central Java, I would like to express my appreciation for the organization of this international-scale sporting event in Central Java. We, the Provincial Government of Central Java together with all our people, warmly welcome your presence at the Prambanan–Mendhut Interhash, which will be held from May 8 to 10, 2026

We are proud that Central Java has once again been entrusted to host Hashers from various countries, following the success of Borobudur Interhash 2012, which was attended by more than 5,000 participants from 50 countries.

The organization of this event in Klaten Regency and Magelang Regency aligns with our commitment to develop Central Java as a leading international sport tourism destination.

The Prambanan–Mendhut area offers a complete experience not only scenic and challenging cross-country running routes, but also a rich and refined cultural heritage recognized worldwide, such as historic temples, batik craft centers, and gamelan traditions.

We hope that Interhash 2026 will further strengthen environmental awareness, foster a deeper appreciation for Indonesian culture, and stimulate the local economy through MSMEs, homestays, and local culinary businesses.

Central Java, which consists of 35 regencies and cities, boasts extraordinary diversity from the beauty of Prambanan and Borobudur Temples, the grandeur of the Surakarta Palace, the natural charm of the Dieng Plateau, to the exotic appeal of Karimunjawa, as well as a wide range of handicraft products worthy of becoming souvenirs.

International sport tourism events are also regularly held in Central Java, such as the Borobudur Marathon, Dieng Caldera Race, Merbabu Sky Race, Merbabu Sky Run, Sikso Rogo Lawu Ultra, and the Telomoyo Aero Festival.

On behalf of the Government of Central Java Province, I invite all Interhash 2026 participants from more than 40 countries to come, enjoy the beauty of nature and culture, experience the warmth and hospitality of the people of Central Java, and take home unforgettable memories from Central Java.

GUBERNUR JAWA TENGAH

Komjen Pol (P) Drs. AHMAD LUTHFI, S.H., S.St., M.K.

# Message from Chair of Interhash Council

On behalf of the Interhash Council I would like to thank the team behind Interhash 2026. They are very experienced at putting on hash events, in Borobudur in 2012 and Bali in 2016, and we look forward to it being an amazing event.

We would also like to thank the Yogyakarta local authorities for allowing us to hold our event here, in this cultural heart of Java.

Interhash is the world's only global hashing event and we are pleased to announce that there is still enthusiasm for hosting this. There are four hard working bid committees who have put together proposals for Interhash in 2028. These bids are from Jeju, Kuala Lumpur, Kuching and Mombasa.

Interhash would not be the event that it is without you the participants, who make the effort to travel around the world. Thank you for your support, and please give some thought to where you would like to go next. Use your individually assigned voting card to make your choice.

# Welcome From Chair of Interhash

To our trailblazers from over 40 nations, the Indonesian Hash House Harriers family, and our honored guests in Indonesia,

As the Chairperson of the Organizing Committee for the Prambanan-Mendut Interhash 2026, it is my distinct honor to welcome you to the cultural heart of Java. From May 8–10, 2026, we gather amidst the majestic Prambanan Temple in DIY and Mendut Temple in Magelang, Central Java. Our motto remains clear: the trails may be dusty, but our laughter and friendships shall never run dry. "Run for fun, fitness, and friendship forever."

We reunite today with the same spirit of joy that many of us shared 14 years ago, when I had the privilege of leading the Borobudur Interhash 2012 in Magelang—my beloved birthplace.

These three days will offer an unforgettable experience. We have prepared runsites that will immerse you in a landscape that is as challenging and beautiful as it is mystical—weaving through Prambanan, Mendut, vibrant rice fields, and local stalls. A true Harrier is forged on demanding routes. I urge you to follow the flour, answer the call of "On On!", and serve as stewards of our ancient temples and natural surroundings. Let us be runners who leave only footprints; respect nature and mind your hydration.

I would like to extend my deepest gratitude to all Harriers, Harriettes, Grandmasters, and the dedicated committee members who have worked tirelessly to bring this vision to life. As the sun sets, I invite you to enjoy our evening festivities, where we will share stories of the trail and celebrate the bonds that unite us—only to do it all again tomorrow.

So, tighten your laces, check the froth on your lips, and let us ensure this Interhash is remembered not for the fastest finish, but for the loudest laughter.

**On On!**  
**King Kong**

# INTERHASH COUNCIL

## *Who are we?*

We are a group of dedicated international hashers who have each attended numerous Interhashes and have directly participated in the organization and management of at least one Interhash or a large regional event.

We meet quarterly online, plus every two years at the Interhash venue and we also cross paths at various international hash events.

All Interhash Council members are volunteers, who do not receive payment for their services, nor do they have their expenses reimbursed.

Our main aim is to improve the quality, efficiency and success of Interhash for all participants.

## *How do we achieve this aim?*

Our members review and certify Interhash bidder proposals and provide guidance to the successful Interhash Committee on event planning and implementation. We do not take direct control of the event, nor do we have any responsibilities for the event.

There are four bids for the next Interhash, in 2028, and we have spent many hours reviewing the details of the bids submitted, analysing their budgets and meetings with the organising teams online. Each team has been given the same level of attention, support and guidance to ensure that their bid is viable and appealing to you, the voters and attendees of the next Interhash.

## *What else do we do?*

Members of the Interhash Council oversee the vote for the next Interhash. We oversee the voting process and the count of the completed votes. Our aim is to ensure that the process is fair and accurately reflects the participants' expressed wishes regarding the next Interhash location.

The Interhash Council also prepares and updates guidelines to assist future Interhash bidders.

# INTERHASH HQ

Located at Hotel Rich, Yogyakarta

Our InterHash 2026 Headquarters will be located at Hotel Rich in the heart of Jogjakarta. This will serve as the central hub for the event, including IH26 registration, Goody Bag collection, the InterHash Bazaar, Red Dress Run and Full Moon Run registrations, IH28 bidders' booths, the InterHash Council desk, Lost and Found, and the bus departure point for the runs.

The hotel is conveniently located about 40 minutes by train from Jogjakarta's new International Airport, and only 15 minutes by car from Jalan Malioboro and Tugu Train Station. Hotel Rich offers all the facilities one could wish for when hosting an InterHash event. In fact, it also served as the headquarters for our InterHash 2012 event.

Since 2012, the impressive Jogja City Supermall has been built directly next to the hotel. Guests now enjoy direct access from the hotel into the mall, allowing you to walk straight into a cinema, supermarket, and dozens of restaurants without even stepping outside. The hotel itself features two bars and two restaurants, serving both local Indonesian cuisine, and international dishes.

InterHash registration will take place in the hotel's large ballroom. Once hashers have completed registration and collected their Goody Bags, they can head to the hotel's Beer Garden, where ice-cold beers and snacks will be available for sale.

The hotel also offers two outdoor swimming pools, including the popular "Sky Pool" on the 9th floor, which provides spectacular views across the Jogjakarta skyline and, on clear days, the majestic Mount Merapi.

For those looking to pick up official InterHash merchandise, the InterHash Bazaar will be located in the large basement area, adjacent to the bus departure point for the runs. This area will also host the IH28 bidders' booths, as well as Red Dress Run and Full Moon Run registrations, Interhash Council (IC) desk, Lost and Found desk, and Down Down Competition registration.

The bus departure point itself is a large, secure area within the hotel grounds. Small stalls will be available here selling snacks and beverages for hashers before they head out on the runs.

On the second floor, the hotel features The Beer Garden, which comfortably accommodates 200 to 300 hashers. This lively space offers restaurant service, a relaxed atmosphere, and access to the swimming pool.

**Address: Jl. Magelang KM.6 No.18, Sinduadi, Sleman,  
Kabupaten Sleman Daerah Istimewa Jogjakarta 55284.

# GETTING AROUND JOGJA

**Taxi fares in Yogyakarta are usually metered and affordable, with a starting fare of Rp.5,500 and most trips in the city center costing under Rp.15,000, though the minimum fare at night is Rp.10,000..**

**The traditional three-wheeled and pedal-powered cart is known as the becak (pronounced beh-chak), which can be found in most parts of Jogjakarta. Haggle furiously before getting into the becak. A ride from within the city to the Malioboro shopping precinct should not cost more than Rp 20,000.**

**Traditional horse-pulled carts, known as andong , or dokar , wait for tourists outside hotspots like the train station, the Kraton, and Mall Malioboro. Haggle furiously. The cost for one round trip for andong is Rp.20,000. Usually they ask for Rp.30,000, but they may settle for less. Andong can accommodate up to 5 adult passengers.**

**Public transport in Yogyakarta mainly uses medium and small buses, including regular buses and “TransJogja,” which are air-conditioned, safer, run from 6am–10pm, and stop only at shelters, while regular buses run mostly from 6am–5pm (some until 9pm), cost less, and passengers pay the driver or helper and say “Kiri” or “Stop please” when getting off..**

**Car and motorbike rentals are available near Tugu Station, with motorbikes starting around Rp.50,000 per day and cars around Rp.300,000, while prices vary based on vehicle type, duration, and negotiation, and an international driving license is required..**

# THE RED DRESS RUN

Similar to previous Interhash Red Dress Runs, this event will also donate its entire proceeds to help build a school for disabled children in the Magelang area. We are hoping that this will help those children to receive a better education, and provide them with a suitable location to develop their talents. The school will feature a plaque 'Proudly built by Hashers around the world - Prambanan Mendut Interhash 2026'.

# THE DOWN DOWN COMPETITION

## RULES

Mmmm? normally rules and Interhash don't mix, but in the very serious business of Interhash Down Downs, there is one basic rule. Drink as much as you can, as fast as you can, and avoid the dreaded spillage! As in each Interhash, a trusty stopwatch will be used, and the whole event will be monitored and judged by our dedicated New Zealand Team, in addition to Interhash luminaries Froggy, Chesty and Mr. Magoo.

The Down Down Competition is open to all Male and Female Hashers. You can register at the Rich Hotel Registration area. If you want to pre-register for this event then email us.

May the best Hashers win. **Drink it DOWN DOWN DOWN !**

During the Prambanan 2026 Interhash, the Down Down Competition will be conducted in its appropriate place on the main stage on Saturday night, hopefully with both defending Champions from the previous Interhash in attendance.

The Harriettes one liter pewter mug is still 'missing' (whoever nicked it, please bring it back, we forgive you!). We have the Men's two liter pewter mug, which has been restored to its former glory, its dents removed, and given a good polishing. New Down Down trophies have been made, are carry friendly, and look cool.

## ***The Great Java Train Rumble 2026***

A Journey of Trails, Rails, and Unforgettable Tales.

The Great Java Train Rumble 2026 is one of the most highly anticipated pre-events of Interhash Prambanan 2026, bringing together hashers from around the world for a one of a kind adventure across Java.

This iconic event traces its roots back to Interhash 2012 Magelang, where it was first introduced as Son of The Great Train Rumble. Its success led to a second edition during Interhash 2016 Bali, and now, in 2026, it returns bigger, bolder, and even more exciting.

## ***What is the Train Rumble?***

True to its name, the Train Rumble is not just an event it's a moving celebration.

Participants will embark on an epic rail journey starting from Jakarta, continuing by train to Bandung, and then onward by train again to Yogyakarta, and as in 2016, continuing the adventure to Surabaya, Bromo, Banyuwangi and Bali.

The train rides from Jakarta to Bandung and Bandung to Yogyakarta are at the heart of the experience, transforming travel time into a rolling celebration filled with laughter, music, dance and of course... plenty of beer.

## ***Run, Stay, Explore, Celebrate***

The journey begins in Jakarta, where participants will stay in the vibrant Kemang area. Known for its lively nightlife, Kemang offers a wide selection of pubs and cafés perfect for hashers to unwind and celebrate after an energizing run.

The 2026 edition will bring hashers back to the legendary trails of Gunung Geulis, running together with J3 HHH. Surrounded by lush greenery and fresh mountain air, this run sets the tone for the adventure ahead before boarding the train to Bandung.

thegreatjavatrainrubble2026@gmail.com

In Bandung, participants will stay along the iconic Braga Street, a place filled with history, charm, and vibrant energy. As the sun sets, Braga comes alive with its unique nightlife cozy bars, live music, and atmospheric cafés creating the perfect setting for hashers to relax, connect, and celebrate each unforgettable day.

The Bandung experience continues with a memorable run at The Lodge Maribaya, hosted by BHHH+. With its scenic forest setting and cool mountain breeze, this trail offers both beauty and excitement one of the highlights of the 2026 journey.

To complete the Bandung experience, participants will explore the city in a fun and relaxed way using Bandros Bandung Tour on Bus and the charming Bandung Trolley adding a cultural and nostalgic touch to the adventure.

At every stop, participants will join local hash chapters for unique and exciting runs, each destination offering its own terrain, character, and unforgettable moments.

### A Legendary Experience Worth Repeating

One of the most remarkable things about The Great Java Train Rumble is the number of repeat participants. Many hashers return again and again, drawn by stories from previous events stories of wild train parties, epic runs, and friendships that last a lifetime.

This is more than just a journey.  
It's a tradition.  
It's a reunion.  
It's a celebration of the Hash spirit.

## Run. Beer. Party. Train Rumble

# The Interhash Election for the country of Interhash 2028

For this Interhash 2026, the IH26 Committee has happily accepted the offer of assistance from the Interhash Council (IC), who will implement and oversee the voting process of IH26, to decide which IH28 bidding team will be the outright winner of the IH26 Election. We thank them for their assistance and support.

## 1. HOW TO VOTE – AN OVERVIEW OF THE VOTING PROCEDURE

- A single transferrable system will be used.
- Voting cards to be printed by IC, including a serial number, and issued to IH 2026.
- The number of voting cards issued to participants must match the number of attendees. Any leftover cards due to no-shows must be handed to the IC.
- Participants must provide identification at registration (Passport or ID card).
- Voting cards are handed to each individual participant, unless a group has given authorization to the club GM, or the GM provides all individual passports.
- Bid presentations for IH2028 will take place on stage on Friday evening at 8.30pm. Bidding teams will have exactly 10 minutes to present their pitch(10 minutes will include any video presentations).
- Ballot boxes will be available, at Registration, from Wednesday 6th May.
- Ballot boxes will be available, in the main venue from 8th May.
- Any voting issues at the main venue will be reported to IC.
- All ballot boxes must be individually guarded, secured, and brought to a designated meeting room at the Rich Hotel for counting on the morning of Sunday 10th May at 10am.
- A noticeboard with instructions on how to vote will be placed at each ballot box (in appropriate languages if necessary).
- The count will take place on Sunday morning. The count will be managed by IC members who will recruit up to 10 vote counters.
- Bidders can have two of their bid team in attendance during the count.

## 2. BALLOT COUNT

- A 'clear winner' is the team with more than 50% of the votes as 1st choice.
- If there is not a 'clear winner' then the 2nd choice of the eliminated 4th placed bid gets counted.
- If there is still no 'clear winner' then the 2nd choice of the eliminated 3rd placed bid gets counted.
- A ballot with only one choice marked will be classified as a valid vote.
- A ballot with only one choice marked, which is for a bid that is eliminated, becomes "exhausted" and is no longer counted in later rounds.
- As above, ballots with less than 4 choices will be counted, until all choices have been eliminated.
- Ballots with check marks, or x's, or circles, are spoilt votes, unless there is only one x, or circle, which is treated as their first choice.
- The ballot result must be reconciled to the total ballots placed in the ballot boxes. e.g. the final count of the winning bid, the final count of the 2nd place bid, plus the exhausted ballots, plus any spoilt ballots.

1. Mark 1 for your first choice.
2. Mark 2 for your second choice, if you wish.
3. Mark 3 for your third choice, if you wish.
4. Mark 4 for your fourth choice, if you wish.

You may rank as many or as few bidders as you like.  
Ranking additional bidders will not harm your first choice.  
Do not give the same ranking to more than one bidder.  
Do not skip numbers (for example: 1, 2, 4).  
Your vote will count for your highest-ranked bidder still in the race

**PRAMBANAN - MENDUT**

*Orful Fuk*

*Hanns Martin Schnelle "Martin aka Orful Fuk" Mother Hash  
Chrischurch H3, New Zealand*

**Forever remembered and deeply missed.**

**Martin played a vital role in the journey toward Interhash Prambanan – Mendut 2026. His dedication and contributions throughout his life were instrumental in making this event possible. He served as our Head Ambassador during the bidding process at Interhash Queenstown 2024, alongside his partner, "Novia aka Jungle Bitch," helping Indonesia earn the honour of hosting Interhash 2026.**

**While hashing in Bali, Martin continued to support and guide the preparation of Interhash 2026. With his integrity, unwavering loyalty, and exceptional attention to detail, he helped ensure that everything ran smoothly and successfully.**

**Even while bravely battling pancreatic cancer, Martin's commitment never faded. He continued to give his time and energy, attending meetings with the Interhash Council in Queenstown 2024, all for the success of Interhash Prambanan – Mendut 2026. His dedication truly knew no limits.**

**On behalf of Hanns Martin Schnelle "Orful Fuk" and the entire committee, we extend our heartfelt gratitude to all participants of Interhash Prambanan – Mendut 2026. We sincerely hope this event will be successful, smooth, and safe, and that everyone enjoys the unforgettable experience of Interhash in Indonesia.**

**Always remembered, always in our hearts. Martin aka Orful Fuk**

*On On, and rest in eternal love.*
